⚠ Before Installation

EN Before Installation

⚠ Prior to mounting the PeepHole Viewer, please make sure you have installed the batteries included.
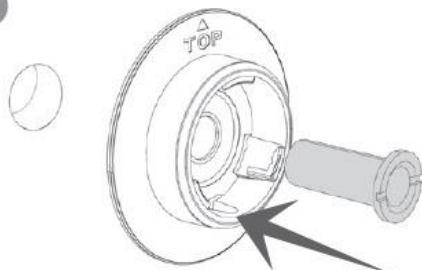

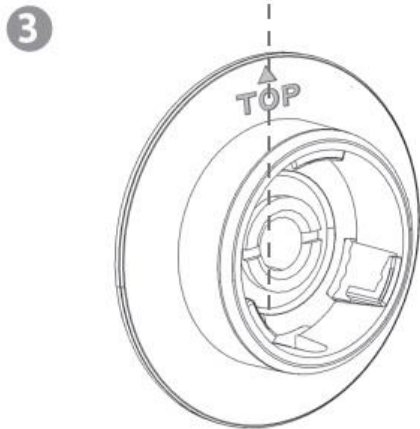

INSTALLATION

①

EN Insert PeepHole lens in the outside of the door.
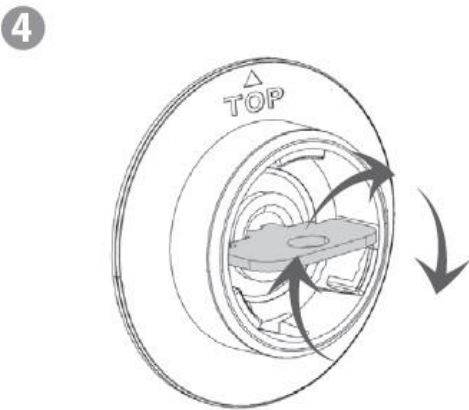

②

EN Insert the PeepHole barrel through Base Flange and insert both into the hole on the inside of the door.

Tighten the PeepHole Barrel with your fingers.

3

EN When the barrel is snug, rotate the Base Flange until the TOP icon is at 12 o'clock (vertical).

4

**EN** Use the Tightening Tool included to tighten the PeepHole barrel.

5
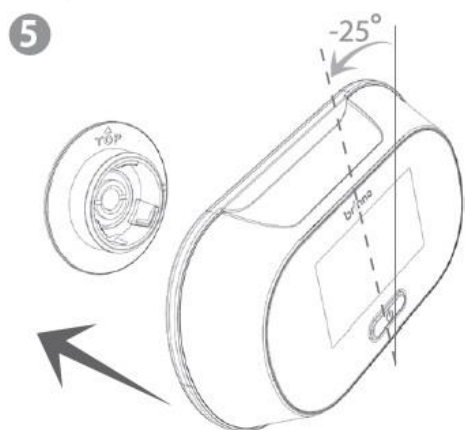

EN Hold the PeepHole Viewer at a -25 degree counter-clockwise position and insert it onto Base Flange.

6

EN Rotate the PeepHole Viewer clockwise until horizontal and you feel it lock in place.

7

Ⓐ Locking Screw

Ⓐ

EN Use the screwdriver to tighten the Locking Screw.

EN Finished

Press the Power button, and check the image on the LCD.

Now you can press the Power button again a few times to practice cycling through the different viewing modes.
